

The figure consists of 12 diagrams, each representing a different parking lot configuration. The diagrams are arranged in a grid-like fashion, with each diagram showing a top-down view of the parking area. The diagrams are labeled with Hebrew text indicating the type of parking (e.g., 'כניסה בתווך' - central access, 'כניסה בקצה' - end access) and the number of spaces. Dimensions are provided in meters (m) for each diagram, showing aisle widths, parking space widths, and overall lot dimensions. The diagrams illustrate various parking layouts, including single-row, double-row, and angled parking configurations.
